DWARF Iris

Collection

HERE'S FRAGILE BEAUTY and true perfection in minuet. These lovely little Dwarf Iris, for all their daintiness and delicate appearance, are as hardy and prolific as the larger varieties. From 6" to 12" high, this is the perfect perennial for rock gardens and border treatments. In general, they are very early bloomers and act as welcome harbingers of spring, appearing about the time the first song of the migratory birds is heard in your garden.

This collection of our finest mixed varieties will include such varieties as ALBA, CYANEA, FAIRY, FLORIDA and NEGUS, giving an assortment of colorful blooms year after year.

"Siberian Sensation"

IRIS

COLLECTION

THE "SIBERIAN" is an Iris ideal for landscaping and is treasured for its delightful difference in petal formation. It produces an abundance of beautiful, beardless blooms on tall and stately stalks which often number as many as 50 or more to a single clump. Blooms are in shades of blue and purple, whites and bluish reds. Leaves are long and narrow. Performs best and blooms most lavishly in large clumps, making it well-suited to every landscape scheme.

This colossal collection of mixed "Siberians" includes such varieties as GAYHEART, LADY NORTCLIFFE, LLEWELLYN, PEGGY PERRY and THELMA for a charming contrast in your perennial varieties.
